

Research Associate, Physical Oceanography and Ocean Modeling, Department of  
Oceanography, Naval Postgraduate School.

The Department of Oceanography is seeking a Research Associate to support reimbursable research programs in Physical Oceanography and Ocean Modeling. The applicant should have a background or prior experience in marine science with training in numerical methods. Skills should include signal and image processing, use of MATLAB™ and FORTRAN programming languages, use of ocean models, such as POM and ROMS, and oceanographic databases, and experience with UNIX. Applicant must have experience preparing proposals, reports, conference presentations/papers and juried publications. It is expected that the applicant will have a M.S. degree or significant work experience in a branch of oceanography, applied mathematics, or numerical methods. Salary will be in the range \$60,000-\$100,000 per year based upon experience. U.S. citizenship is strongly preferred. Interested applicants are encouraged to apply by submitting their CV with a list of three references no later than February 15, 2012. Application materials should be submitted to: Professor Jeffrey Paduan, Chair, Department of Oceanography, Naval Postgraduate School, Code OC/Pd, 833 Dyer Road, Room 330, Monterey, CA 93943, or submitted electronically to [paduan@nps.edu](mailto:paduan@nps.edu). NPS is an equal opportunity/affirmative action employer.
