The Naval Postgraduate School’s Cyber Academic Group (CAG) within the Graduate School of Operations and Information Sciences (GSOIS) invites applications for non-Tenure Track openings as a Lecturer in computer science and cyber security.

**Qualifications:**
Successful applicants will have a minimum of a B.S. in Computer Science, with a M.S. degree preferred, with at least 7 years experience in the field of computer and/or cyber security. Candidates must have strong writing skills and have proven experience teaching graduate level courses and conducting research in the desired field of interest. Candidates must be clearable to TS-SCI level.

**Responsibilities:**
The Lecturer will be responsible for developing grant proposals for computer science and cyber security research projects, provide instruction in one or more graduate-level courses in computer science and/or cyber security, advise thesis students, and develop, direct, and manage, a wide variety of education and research initiatives, as directed by the CAG Chair.

**Position Location:**
This position is based in Fort Meade, MD.

The Cyber Academic Group (CAG) at the Naval Postgraduate School (NPS) is an interdisciplinary academic partnership providing direction and guidance for the Cyber Systems Operations curriculum. The CAG also serves as a focal point for cyber-related research conducted at the Naval Postgraduate School. The primary objective of the CAG is to offer educational programs, such as the Master of Science in Cyber Systems and Operations, to military Officers and government civilians. These programs are intended to enable graduates to substantively improve the ability of our Nation not only to support cyber-dependent missions and functions, but also to achieve focused objectives within the cyber domain itself. This is complemented by a synergistic linkage between cyber research relevant to the Department of Defense and U.S Government and the CAG’s graduate education programs. Student research topics address timely and relevant problems of sponsors and complement the longitudinal research efforts of CAG faculty members.

Applicants should send their resumes accompanied by names and contact information for four references to
