INTRODUCTION:

This publication constitutes a Broad Agency Announcement (BAA) as contemplated in Federal Acquisition Regulation (FAR) 6.102(d)(2) and the Department of Defense Grants and Agreements (DoDGARS) Subpart 22.315(a). A formal Request for Proposals (RFP), solicitation, and/or additional information regarding this announcement will not be issued. This announcement replaces NPS BAA 09-001.

Interested parties are responsible to check GRANTS.GOV (www.grants.gov) for possible amendments to this BAA.

The Naval Postgraduate School (NPS) nor the Contracting Office, Fleet and Industrial Supply Center-San Diego (FISC-SD) will issue paper copies of this announcement. The NPS reserves the right to select for award all, some or none of the proposals in response to this announcement. The NPS reserves the right to fund all, some or none of the proposals received under this BAA. NPS provides no funding for direct reimbursement of proposal development costs. Technical and cost proposals (or any other material) submitted in response to this BAA will not be returned. It is the policy of NPS and FISC-SD to treat all proposals as sensitive competitive information and to disclose their contents only for the purposes of evaluation.

I. GENERAL INFORMATION

1. Requiring Agency: Naval Postgraduate School

2. Research Opportunity Title:

Edge Organizations in the Context of Network-Centric Operations

3. Program Name: Not applicable
4. Research Opportunity Number:  NPS BAA 10-001

5. Response Date:  This announcement will remain open until 10 April 2011 or until replaced by successor BAA. Proposals may be submitted at any time during this period.

6. Research Opportunity Description -

The Naval Postgraduate School (NPS) has established and currently manages the Center for Edge Power to conduct research and educational activities proposed on behalf of the OASD (NII)/DoD CIO. The Edge Center focuses on research pertaining to Defense command, control and organization in general and on Edge Organizations in the context of Network Centric Operations in particular. The research will be performed by faculty and students at NPS and other top-tier research institutions, and it will be integrated into a coherent research stream. This research opportunity description outlines six research areas of interest in FY10/11.

- **Research Area A – Edge Organizations.** Research in this area seeks to understand how to conceptualize, develop, deploy and sustain Edge organizations. Building upon an accumulating stream of research along these lines, various conceptual models of alternate organizational forms (e.g., Hierarchy, Edge) have been evaluated and critiqued in the contemporary C2 domain. Performance metrics are being developed and used to test Edge Organization hypotheses via computational models, laboratory experiments and fieldwork. Hypotheses of particular interest include those pertaining to the comparative appropriateness of Edge versus other organizational forms for different mission-environmental contexts.

- **Research Area B – C2 Agility and Maturity.** Research in this area seeks to understand how command and control (C2) organizations and approaches can be enhanced to increase agility and how such organizations can be tailored to achieve the requisite level of maturity. Agility pertains to accomplishing a diversity of sometimes unfamiliar missions well, and it may require rapid re-organization as well as quick acculturation to work with sometimes novel and goal-incongruent coalition partners. Maturity pertains to the range of alternate approaches to C2 that an organization enjoys, and it ranges from conflicted operations—through de-conflicted, coordinated and collaborative—to Edge. Theoretical work is acceptable, but empirical research is emphasized, particularly to understand and achieve requisite C2 maturity.

- **Research Area C – Infrastructure Enhancement.** Research in this area seeks to develop appropriate tools to create virtual environments and to explore flows of knowledge, trust and power through diverse organizations in a variety of mission-environmental contexts. Tools for modeling and simulation, laboratory experimentation, immersive game play and enhanced tacit knowledge flow are encouraged. Additional infrastructure developments and enhancements to support Edge research and development are welcome.
- **Research Area D – Accelerating Intercultural Knowledge Flows.** Research in this area seeks to understand how the deep tacit knowledge associated with cultural differences (e.g., national, religious, ethnic, professional, organizational) can be induced to flow quickly between people and particularly organizations from disparate cultures who need to work together. The relationships between knowledge flows (and transfers) and conditions related to the enablers or impediments of these flows (including trust) require investigation also. Theoretical work is acceptable, but empirical research is emphasized, particularly to understand and accelerate acculturation.

- **Research Area E – C2 in Virtual Environments.** Research in this area seeks to understand what aspects of C2 can be accomplished better through virtual environments—particularly immersive ones—than their physical or media-poor (e.g., textual) counterparts. Emphasis on training applications is encouraged, but the serious focus on supporting combat and other operations is of prime interest. Research in this area should include prototyping but must go farther to incorporate empirical assessment through modeling, simulation, experimentation or like methods.

- **Research Area F – Emerging Research.** Research in this area seeks to promote emerging C2 research that may not be described well within the five areas above and to catalyze innovation further beyond the innovative areas under investigation currently.

Evidence of Progress: In accordance with the Code of Best Practice for C2 analysis, participants in each Research Area above are expected to demonstrate evidence of progress via the following: a) journal-quality papers (i.e., one describing each project) submitted to the 2011 Command & Control Research & Technology Symposium or International Command & Control Research & Technology Symposium; b) refinement of conference papers into academic journal articles submitted for publication; c) participation in two Edge Research Workshops (e.g., one in the summer, one in the winter; generally one or two days in length) in California; and d) data rights, software, and documentation for any software developed using these funds.

7. **Point(s) of Contact –**

Questions of a technical nature shall be directed to the cognizant Technical Point of Contact, as specified below:

Dr. Mark Nissen  
Director, Center for Edge Power  
Department of Information Sciences  
Graduate School of Information and Operational Sciences  
Naval Postgraduate School  
Code IS/Nissen
Questions of a business nature shall be directed to the cognizant Contract Specialist at FISC-San Diego or to Contracts and Grants Support at the Naval Postgraduate School in writing by electronic mail. Questions presented by telephone call or other means will not be responded to.

Janet Norton  
Contract Specialist  
FISC San Diego  
Seal Beach Detachment  
Code 230  
800 Seal Beach Blvd., B-239  
Seal Beach, CA 90740-5000  
(562) 626-7683 (voice)  
janet.norton@navy.mil

Dotty Smith  
Contract and Grant Support  
Research and Sponsored Program Office  
Naval Postgraduate School  
Code 41  
Halligan Hall, Bldg. 234  
Monterey, CA 93943-5138  
(831) 656-2043 (voice)  
baa@nps.edu

Questions or assistance regarding Grants.gov registration process, system requirements or submittal process shall be directed to Grants.gov by phone at 1-800-518-4726 or email to support@grants.gov

8. Instrument Type(s) -

Awards may take the form of Grants or Cooperative Agreements, as appropriate.

**Grant** – A legal instrument which, consistent with 31 U.S.C. 6304, is used to enter into a relationship: (1) The principal purpose of which is to transfer a thing of value to the recipient to carry out a public purpose of support or stimulation authorized by a law of the United States, rather than to acquire property or services for the Department of Defense’s direct benefit or use. (2) In which substantial involvement is not expected between the Department of Defense and the recipient when carrying out the activity contemplated by the grant.
**Cooperative Agreement** – A legal instrument which, consistent with 31 U.S.C. 6305, is used to enter into the same kind of relationship as a grant, except that substantial involvement is expected between the Department of Defense and the recipient when carrying out the activity contemplated by the cooperative agreement. The term does not include “cooperative research and development agreements” as defined in 15 U.S.C. 3710a.

9. **Catalog of Federal Domestic Assistance (CFDA) Numbers:** 12.300

10. **Catalog of Federal Domestic Assistance (CFDA) Titles:**

Department of Defense (DoD) Basic and Applied Scientific Research

11. **Other Information:**

This program is targeted in particular toward experienced university professors working with PhD students.

Federal Acquisition Regulation (FAR) Part 35 restricts the use of Broad Agency Announcements (BAAs), such as this, to the acquisition of the basic and applied research and that portion of advanced technology development of a specific system or hardware procurement. Grants and other assistance agreements made under BAAs are for scientific study and experimentation directed towards advancing the state of the art and increasing knowledge or understanding.

Release of Government documentation, to include award documents, can only be released to third parties pursuant to the Freedom of Information Act and can be released pursuant to that statute (5 USC 552). Please forward your request for award information to:

Information & Privacy Coordinator  
ATTN: Staff Judge Advocate  
Naval Postgraduate School  
1 University Circle  
Bldg 220, Room 131  
Monterey, CA. 93943-5001

**THIS ANNOUNCEMENT IS NOT FOR THE ACQUISITION OF TECHNICAL ENGINEERING AND OTHER TYPES OF SUPPORT SERVICES.**

**II. AWARD INFORMATION**

The Government anticipates making multiple awards throughout this announcement. The anticipated award will take the form of grants or cooperative agreements.

Total Amount of Funding Available: $600,000  
Anticipated Range of Individual Award Amounts: $50,000 – $200,000
Anticipated Period of Performance: 05/01/2010 – 09/30/2011

For the past two years Congress has placed limits on the percentage of indirect costs that can be paid by the government using basic research (6.1) funds. Currently indirect costs paid under assistance awards for the performance of basic research may not exceed 35 percent. It is unknown at present whether a similar indirect cost restriction will apply to 6.1 funds in FY 2010 or thereafter.

III. ELIGIBILITY INFORMATION

All responsible sources from academia and industry may submit proposals under this BAA. Historically Black Colleges and Universities (HBCUs) and Minority Institutions (MIs) are encouraged to submit proposals and join others in submitting proposals. However, no portion of this BAA will be set aside for HBCU and MI participation.

U. S. government schools of higher education, Navy laboratories as well as other Department of Defense agencies are not eligible to receive awards under this BAA and should not directly submit white papers or full proposals in response to this BAA. If any such organization is interested in the program described herein, the organization should contact the NPS Technical POC to discuss its area of interest.

Some topics may cover export controlled technologies. Research in these areas is limited to “U.S. persons” as defined in the International Traffic in Arms Regulations (ITAR) 22 CFR § 120.1 et seq.

IV. APPLICATION AND SUBMISSION INFORMATION:

1. Application and Submission Process -

Offerors are expected to submit a white paper in advance of a full proposal.

A full proposal should be submitted through grants.gov only if invited formally after review of the white paper.

2. Content and Format of White Papers/Full Proposals –

White Papers and Full Proposals submitted under this BAA are expected to be unclassified; however, classified proposals are permitted. If a classified proposal is submitted, the resultant award will be unclassified.

All Proposal submissions will be protected from unauthorized disclosure in accordance with FAR 15.207, applicable law, and DoD/DoN regulations. Offerors are expected to appropriately mark each page of their submission that contains proprietary information.
A. WHITE PAPERS

i. White Paper Format

- Paper Size – 8.5 x 11 inch paper
- Margins – 1” inch
- Spacing – single or double-spaced
- Font – Times New Roman, 12 point
- Number of Pages – No more than five (5) single-sided pages (excluding cover page and resumes). White papers exceeding the page limit may not be evaluated.

ii. White Paper Content

- Cover Page – The Cover Page shall be labeled “PROPOSAL WHITE PAPER”, and shall include the BAA number, proposed title, Offeror’s administrative and technical points of contact, with telephone numbers, facsimile numbers, and Internet email addresses, and shall be signed by an authorized officer.

- Narrative should include:
  - Research objective
  - Motivation of problem to be solved
  - Summary of key background research to inform the proposed project.
  - Research design conceived for the proposed project.
  - Anticipated results.
  - Sample of references from the scientific literature used to inform the study.
  - Names and titles of all investigators and PhD students proposed to be involved in the project.
  - Preliminary Schedule.
  - Rough Cost Estimate.

iii. White Paper Submission

White papers shall be submitted both electronically and in hard copy as directed below:

- Electronic copy - On or before the date and time specified in the BAA, an email submission shall be sent to the attention of Technical POC, email: MNissen@nps.edu. The subject line of email shall read “NPS BAA 10-001 White Paper Submission”. The attachments must be either Microsoft® Word or Adobe Acrobat® (V7.0 or later preferred) .PDF format; and

- Hard copy – One (1) original, two (2) additional paper copies, and one electronic copy on a CD-ROM shall be mailed to the Technical POC at the address shown in Section I, Paragraph 7.
B. FULL PROPOSALS

i. Full Proposal Format – Volume 1 - Technical and Volume 2 - Cost Proposal

- Paper Size – 8.5 x 11 inch paper
- Margins – 1” inch
- Spacing – single or double-spaced
- Font – Times New Roman, 12 point
- Number of Pages –
  
  Volume 1 (Technical) is limited to no more than 30 pages, including indexes/foldouts/photographs/appendices.

  Volume 2 (Cost Proposal) is limited to no more than 30 pages.

The cover page, table of contents, and resumes are excluded from the page limitations. Full Proposals exceeding the page limit may not be evaluated.

ii. Full Proposal Content

1) Volume 1: Technical Proposal

- **Cover Page:** This should include the words “Technical Proposal” and the following:
  
  1) BAA number;
  2) Title of Proposal;
  3) Identity of prime Offeror and complete list of subawardees and contractors, if applicable;
  4) Technical contact (name, address, phone/fax, electronic mail address)
  5) Administrative/business contact (name, address, phone/fax, electronic mail address) and;
  6) Proposed period of performance (identify both the base period and any options, if included)

- **Table of Contents:** An alphabetical/numerical listing of the sections within the proposal, including corresponding page numbers.

- **Executive Summary:** Provide a concise (approximately 200 words) abstract/summary of the proposed research effort.

- **Statement of Work:** A Statement of Work (SOW) clearly detailing the scope and objectives of the effort and the technical approach. Include a detailed listing of the technical tasks/subtasks organized by month. Appropriate references to the scientific literature should be cited. It is anticipated that the proposed SOW will
nding SOW without any proprietary restrictions, which can be attached to the agreement award. This section should not exceed twenty (20) pages.

- **Project Schedule and Milestones:** A summary of the schedule of events and milestones, presented on a quarterly and yearly basis partitioned by major tasks, based on a government fiscal year basis (1 OCT – 30 SEP).

- **Deliverables/Reports:** A detailed description of the reports and data deliverables, inclusive of the timeframe in which they will be delivered under a proposed award.

The following are sample data deliverables typically required for a research effort under a grant or cooperative agreement:

- Technical and Financial Progress Reports
- Presentation Materials
- Final Patent Report
- Final Technical Report

- **Qualifications:** A discussion of previous accomplishments and work in this, or closely related, areas, and the qualifications of the proposed Principal Investigator and any other key personnel. Biographical information of the principal investigator(s) and PhD students/assistants shall be attached to the proposal, and will not count toward the page limitations. Include a description of involvement in other research projects currently undertaken by the applicant, whether or not acting as a principal investigator, lists of his/her publications, professional activities (e.g. organizing and/or serving on a program committee, conferences/workshops; publications/proposals reviewed or served as a consultant; patents; honors; awards and other accomplishments.

- **Management Approach:** A discussion of the overall approach to the management of this effort, including brief discussions of the total organization; use of personnel; project/function/contractor/subrecipient relationships; government research interfaces; and planning, scheduling and control practice. Identify which personnel and contractors/subrecipients (if any) will be involved. Include a description of the facilities that are required for the proposed effort with a description of any Government Furnished Equipment/Hardware/Software/Information required, by version and/or configuration.

2) **Volume 2 : Cost Proposal**

The Offeror may use the Grants.gov budget forms from the application package template associated with the BAA on the Grants.gov website located at [http://www.grants.gov](http://www.grants.gov) or a similar substitute. If options are proposed, the cost
The proposal must provide the pricing information for the option periods; failure to include the proposed costs for the option periods will result in the options not being included in the award. Assume that performance will start no earlier than three (3) months after the date the cost proposal is submitted. A Budget Justification document that provides appropriate justification and/or supporting documentation for each element of cost proposed shall be included in the application, Adobe Acrobat® (V7.0 or later preferred).PDF format.

**Part 1:** The itemized budget must include the following:

- **Direct Labor** – Individual labor categories or persons, with associated labor hours and unburdened direct labor rates. Provide escalation rates for out years. Administrative and clerical labors – Salaries of administrative and clerical staff are normally indirect costs (and included in an indirect cost rate). Direct charging of these costs may be appropriate when a major project requires an extensive amount of administrative or clerical support significantly greater than normal and routine levels of support. Budgets proposing direct charging of administrative or clerical salaries must be supported with a budget justification which adequately describes the major project and the administrative and/or clerical work to be performed.

- **Fringe Benefits and Indirect Costs** (i.e., F&A, Overhead, G&A, etc) – The proposal should show the rates and calculation of the costs for each rate category. If the rates have been approved/negotiated by a Government agency, provide a copy of the memorandum/agreement. If the rates have not been approved/negotiated, provide sufficient detail to enable a determination of allowability, allocability and reasonableness of the allocation bases, and how the rates are calculated. Additional information may be requested, if needed. If composite rates are used, provide the calculations used in deriving the composite rates.

- **Travel** – The proposed travel cost should include the following for each trip: the purpose of the trip, origin and destination if known, approximate duration, the number of travelers, and the estimated cost per trip must be justified based on the organizations historical average cost per trip or other reasonable basis for estimation. Such estimates and the resultant costs claimed must conform to the applicable Federal cost principals.

- **Subawards** – Provide a description of the work to be performed by the subrecipients. For each subaward, a detailed cost proposal is required to be submitted by the subrecipient. The proposal and data in support of cost or price analyses performed by the prime Offeror must be included in the prime Offeror’s proposal submission and will be reviewed as a part of the Government’s cost analysis of the overall proposal. Fee/profit is unallowable on subawards. Note: A contract for procurement of goods or services is excluded from the definition of subaward (see Contracts below).

- **Contracts** – Provide a description of the goods or services that is required for the conduct of research program to be performed by the proposed contractor or vendor. For each contract, a detailed cost proposal is required to be submitted by
the contractor or vendor. The proposal (includes fee/profit, if applicable) and data in support of cost or price analyses performed by the prime Offeror must be included in the prime Offeror’s proposal submission and will be reviewed as a part of the Government’s cost analysis of the overall proposal.

- **Consultants** – Provide a breakdown of the consultant’s hours, the hourly rate proposed, any other proposed consultant costs, a copy of the signed Consulting Agreement or other documentation supporting the proposed consultant rate/cost, and a copy of the consultant’s proposed statement of work if it is not already separately identified in the prime Offeror’s proposal.

- **Materials & Supplies** – Provide an itemized list of all proposed materials and supplies including quantities, unit prices, proposed vendors (if known), and the basis for the estimate (e.g., quotes, prior purchases, catalog price lists).

- **Recipient Acquired Equipment or Facilities** – Equipment and/or facilities are normally furnished by the Recipient. If acquisition of equipment and/or facilities is proposed, a justification for the purchase of the items must be provided. Provide an itemized list of all equipment and/or facilities costs and the basis for the estimate (e.g., quotes, prior purchases, catalog price lists). Allowable items normally would be limited to research equipment not already available for the project. General purpose equipment (i.e., equipment not used exclusively for research, scientific or other technical activities, such as personal computers, office equipment and furnishings, etc.) should not be requested unless they will be used primarily or exclusively for the project. For computer/laptop purchases and other general purpose equipment, if proposed, include a statement indicating how each item of equipment will be integrated into the program or used as an integral part of the research effort.

- **Other Direct Costs** – Provide an itemized list of all other proposed other direct costs such as Graduate Assistant tuition, laboratory fees, report and publication costs, and the basis for the estimate (e.g., quotes, prior purchases, catalog price lists).

- **Fee/Profit** – Fee/profit is unallowable.

**Part 2:** Cost breakdown by Government fiscal year and task/sub-task corresponding to the same task breakdown in the proposed Statement of Work. When options are contemplated, options must be separately identified and priced by task/subtask.

3. **Significant Dates and Times** –

This announcement will remain open until 10 April 2011 or until replaced by a successor BAA. Proposals may be submitted any time during this period.

4. **Submission of Late Proposals** –

Not applicable
5. Submission of Proposals via Grants.gov

For submission of a full proposal, the Offeror must use the Grants.gov website (http://www.grants.gov/). Offeror shall complete the mandatory forms in the application package template associated with this BAA. However, it should be noted that “white papers” should not be submitted through Grants.gov website (see Section IV, Award Administration Information, Paragraph 2(A), White Papers).

There are several one-time actions that must be completed in order to submit an application through Grants.gov (e.g., obtain a Dun and Bradstreet Data Universal Numbering System (DUNS) number, register with the Central Contract Registry (CCR), register with the credential provider, and register with Grants.gov). Please visit http://www07.grants.gov/applicants/get_registered.jsp for complete registration instructions. Applicants who are not registered with CCR and Grants.gov, should allow at least 21 days to complete these requirements. Additional Instructions and guidance are available on the grants.gov website at http://www.grants.gov/applicants/resources.jsp.

Any questions that may arise relating to the registration process, system requirements, how an application form works, or the submittal process must be directed to Grants.gov by phone at 1-800-518-4726 or by email to support@grants.gov.

Special Notice regarding a Waiver of Grants.gov proposal submission requirement:

If an Offeror is unable to comply with the requirement to use Grants.gov, for submission of a grant application under this BAA or finds it would be an excessive burden to comply with this requirement, a waiver request may be submitted. Such request should be submitted by the Electronic Business Point of Contact listed in the CCR for the organization and should contain the Organization/Individual’s name, address, telephone number, and email address. The request should state the reason for the request in sufficient detail so a decision can be made. The Waiver Request should be submitted to the cognizant Contract Specialist at FISC-San Diego and the Contracts and Grants Support at the Naval Postgraduate School, point of contact listed in Section I (General Information), Item 7 above. Such request can be sent by email or registered mail. A decision and response will be issued within 14 calendar days of receipt of the request by cognizant Contract Specialist. Foreign Grantees who are not registered in CCR may request a waiver on that basis since CCR registration is integral to the Grants.gov application process. If the waiver is approved, NPS will provide a packet of all required documents and submission instructions via email or in hard copy via registered mail.

6. Content and Form of Applications

You must submit the mandatory forms for this announcement [includes the SF-424 (R&R) (Application for Federal assistance), R&R Other Project Information and other forms] in accordance with the application instructions on Grants.gov. Use the optional “Attachments” form to include any other document(s) not specifically identified elsewhere in this funding opportunity. If submitting any information that is deemed
proprietary, please denote the beginning and ending of such information with asterisks (***)

All applications must be self-contained within specified page limitations, Internet website addresses (URLs) may not be used to provide information necessary to the review because reviewers are under no obligation to view the Internet sites.

7. Certifications/Assurances

A. Applicants must submit the SF 424B – Assurances – Non-Construction Programs form, which is separate from in the application package.

B. By signing and submitting an application for federal assistance, SF 424 (R&R) under this Broad Agency Announcement, the applicant is providing Certification Regarding Lobbying Activities. If paragraph two of the certification applies then complete and submit the SF-LLL Disclosure of Lobbying which is provided as an optional form in the application package.

V. EVALUATION INFORMATION

1. Evaluation Criteria –

The following evaluation criteria apply to both the white papers and the Full Proposals. White papers will be evaluated using a reduced set of the evaluation criteria. Award decisions will be based on competitive selection of proposals through a peer and/or technical and scientific review and business decision process with technical and scientific considerations being most important. Criteria A and B are of equal importance and more important than criterion C. The sub criteria listed under each particular criterion are of equal importance.

A. Overall scientific and technical merits of the proposal
   i. Knowledge and familiarity with Edge organizations
   ii. Thoroughness, clarity and parsimony of the proposal
   iii. Feasibility of research design/technical concept
   iv. Potential impact of research results
   v. Publication potential (leading journal) of research results

B. Offeror’s capabilities, related experience, and past performance, including the qualifications, capabilities and experience of the proposed principal investigator and assistant personnel.
   i. The quality of technical personnel proposed;
   ii. The Offeror’s experience in relevant efforts with similar resources
   iii. The ability to manage the proposed effort

C. The realism of the proposed cost
The Government will evaluate options for award purposes by adding the total cost for all options to the total cost for the basic requirement. Evaluation of options will not obligate the Government to exercise the options during award period.

2. Evaluation Panel

Technical and cost proposals submitted under this BAA will be protected from unauthorized disclosure in accordance with FAR 3.104-4 and 15.207. An Evaluation Team of government technical experts drawn from the Naval Postgraduate School Center of Edge Power, along with its sponsors and affiliates, will perform the evaluation of white papers and full proposals. Restrictive notices notwithstanding, one or more support contractors may be utilized as subject-matter-expert technical consultants. Similarly, support contractors may be utilized to evaluate cost proposals. However, proposal selection and award decisions are solely the responsibility of Government personnel. Each support contractor’s employee having access to technical and cost proposals submitted in response to this BAA will be required to sign a non-disclosure statement prior to receipt of any proposal submissions.

VI. AWARD ADMINISTRATION INFORMATION

1. Administrative Requirements

- The North American Industry Classification System (NAICS) code – The North American Industry Classification System (NAICS) code for this announcement is 541720 with a small business size standard of $7.0M.
- Central Contractor Registry (CCR) - Successful Offerors not already registered in the CCR will be required to register in CCR prior to award of any grant or cooperative agreement, or other transaction agreement. Information on CCR registration is available at http://www.ccr.gov

2. Administrative and National Policy Requirements

Any award issued as a result of this announcement is subject to the following administrative, cost and national policy requirements contained therein.

B. Department of Defense Grant and Agreement Regulations (DoDGARS 3210.6-R)
E. Federal Acquisition Regulation (FAR) Part 31.2, Contracts with Commercial Organizations.
F. OMB Circular A-133. “Audits of States, Local Governments, and Non-Profit Organizations.”

VII. OTHER INFORMATION

1. Government Property/Government Furnished Equipment (GFE) and Facilities

Each proposer must provide a very specific description of any equipment/hardware that it needs to acquire to perform the work. This description should indicate whether or not each particular piece of equipment/hardware will be included as part of a deliverable item under the resulting award. Also, this description should identify the component, nomenclature, and configuration of the equipment/hardware that it proposes to purchase for this effort. The purchase on a direct reimbursement basis of special test equipment or other equipment that is not included in a deliverable item will be evaluated for allowability on a case-by-case basis. Maximum use of Government integration, test, and experiment facilities is encouraged in each of the Offeror’s proposals.

Government research facilities and operational military units are available and should be considered as potential government furnished equipment/facilities. These facilities and resources are of high value and some are in constant demand by multiple programs. It is unlikely that all facilities would be used for the Center for Edge Power. The use of these facilities and resources will be negotiated as the program unfolds. Offerors should explain as parts of their proposals which of these facilities are critical for the project’s success.

2. Security Classification

In order to facilitate intra-program collaboration and technology transfer, the Government will attempt to enable technology developers to work at the unclassified level to the maximum extent possible. If access to classified material will be required at any point during performance, the Offeror must clearly identify such need prominently in its proposal.

3. Use of Animals and Human Subjects in Research

Proposals for research involving human subjects the Offeror must submit prior to award: documentation of approval from an Institutional Review Board (IRB); IRB-approved informed consent form; IRB-approved research protocol; an executive summary of planned research (one-half to one page in length); proof of completed human research training (e.g., training certificate, institutional verification of training, etc.); an application for a DoD Navy Addendum to the Offeror’s DHHS-issued Federal Wide Assurance (FWA) or the Offeror’s DoD Navy Addendum number. The forms for assurance applications can be found at http://www.hhs.gov/ohrp/assurances/assurances_index.html. If the research is determined by the IRB to be greater than minimal risk, the Offeror also must provide the name and contact information for the independent medical monitor. Note: for research involving human subjects that is greater than minimal risk,
administrative procedures to protect human subjects from medical expenses (not otherwise provided or reimbursed) that are the direct result of participation in a research project must be addressed.

4. Recombinant DNA

Proposal which call for experiments using recombinant DNA must include documentation of compliance with Department of Human and Health Services (DHHS) recombinant DNA regulations, approval of the Institutional Biosafety Committee (IBC), and copies of the DHHS Approval of the IBC letter.

5. Department of Defense High Performance Computing Program

The DoD High Performance Computing Program (HPCMP) furnishes the DoD S & T and DT & E communities with use-access to very powerful high performance computing systems. Awardees of FISC assistance instruments may be eligible to use HPCMP assets in support of their funded activities if Technical Program Officer approval is obtained and if security/screening requirements are favorably completed. Additional information and an application may be found at [http://www.hpcmo.hpc.mil/](http://www.hpcmo.hpc.mil/).

6. Organizational Conflict of Interest

All Offerors and proposed subcontractors must affirm whether they are providing scientific, engineering, and technical assistance (SETA) or similar support to any NPS through an active contract or subcontract. All affirmations must state which office(s) the Offeror supports and identify the prime contract numbers. Affirmations shall be furnished at the time of proposal submission. All facts relevant to the existence or potential existence of organizational conflicts of interest (FAR 9.5) must be disclosed. The disclosure shall include a description of the action the Offeror has taken or proposes to take to avoid, neutralize, or mitigate such conflict. In accordance with FAR 9.503 and without prior approval, a contractor cannot simultaneously be a SETA and a research and development performer. Proposals that fail to fully disclose potential conflicts of interests or do not have acceptable plans to mitigate identified conflicts will be rejected without technical evaluation and withdrawn from further consideration for award. If a prospective Offeror believes that any conflict of interest exists or may exist (whether organizational or otherwise), the Offeror should promptly raise the issue with NPS by sending his/her contact information and a summary of the potential conflict by e-mail to the Business Point of Contact in Section I, item 7 above, before time and effort are expended in preparing a proposal and mitigation plan. If, in the sole opinion of the Government after full consideration of the circumstances, any conflict situation cannot be effectively avoided or mitigated, the proposal may be rejected without technical evaluation and withdrawn from further consideration for award under this BAA.

7. Protection of Proprietary and Sensitive Information

The parties acknowledge that, during performance of the award agreement resulting from this BAA, the recipient may require access to certain proprietary and confidential information (whether in its original or derived form) submitted to or produced by the
Government. Such information includes but it is not limited to, business practices, proposals, designs, mission or operation concepts, sketches, management policies, cost and operating expense, technical data and trade secrets, proposed Defense policies, cost and operating expense, technical data and trade secrets, proposed Defense budgetary information, and acquisition planning or acquisition actions, obtained either directly or indirectly as a result of the effort performed on behalf of DoD. The recipient shall take appropriate steps not only to safeguard such information, but also to prevent disclosure of such information to any party other than the Government. The recipient agrees to indoctrinate personnel who will have access to or custody of the information concerning the nature of the confidential terms under which the Government received such information and shall stress that the information shall not be disclosed to any other party or to recipient personnel who do not need to know the contents thereof for the performance of the agreement. Recipient personnel shall also be informed that they shall not engage in any other action, venture, or employment wherein this information will be used for any purpose by any other party.

8. Acknowledgement of Naval Postgraduate School (NPS) Support:

NPS’s full or partial support must be acknowledged in journal articles, oral or poster presentations, news releases, interviews with reporters and other communications. Any documents developed under an award agreement resulting from this BAA that are intended for distribution to the public or inclusion in a scientific, technical, or other journal shall include the following statement:

This publication [article] was developed under NPS Research on Edge Organizations in the Context of Network-Centric Operations and Assistance Agreement No. __________ awarded by the U.S. Fleet Industrial Supply Center, San Diego (FISC-SD). It has not been formally reviewed by NPS. The views and conclusions contained in this document are those of the authors and should not be interpreted as necessarily representing the official policies, either expressed or implied, of the U.S. FISC-SD and NPS. The FISC-SD and NPS do not endorse any products or commercial services mentioned in this publication.
