INTRODUCTION:

This publication constitutes a Broad Agency Announcement (BAA) as contemplated in Federal Acquisition Regulation (FAR) 6.102(d)(2) and the Department of Defense Grants and Agreements (DoDGARS) Subpart 22.315(a). A formal Request for Proposals (RFP), solicitation, and/or additional information regarding this announcement will not be issued. Neither the Naval Postgraduate School (NPS) nor the Contracting and Grant Office of NAVSUP Fleet Logistics Center San Diego (NAVSUP FLC San Diego) will issue paper copies of this announcement. Interested parties are responsible to check www.grants.gov or http://www.nps.edu/Research/WorkingWithNPS.html for possible amendments to this BAA.

The Naval Postgraduate School (NPS) reserves the right to select and fund for award, all, some, or none of the proposals in response to this announcement. No funding shall be provided for direct reimbursement of proposal development costs. Technical and cost proposals (or any other material) submitted in response to this BAA will not be returned. It is the policy of NPS and NAVSUP FLC San Diego to treat all proposals as sensitive competitive information and to disclose their contents only for the purposes of evaluation.

I. GENERAL INFORMATION:

1. Requiring Agency: Naval Postgraduate School

2. Opportunity Title: Acquisition Research at the Naval Postgraduate School

3. Program Name: Not Applicable (N/A)

4. Funding Opportunity Number: NPS-BAA-13-003

5. Response Date: This announcement will remain open until 5:00 p.m. (PDST) 13 June 2013. Proposals received after this time will not be considered for award.

6. Description: This BAA’s primary objective is to attract outstanding researchers and scholars who will investigate topics of interest to the defense acquisition community. The program solicits innovative proposals for defense acquisition management and policy research to be conducted for approximately a 12-month period during the September 2013 through May 2015 timeframe.

In this BAA, the phrase “defense acquisition management and policy research” refers to investigations in all disciplines, fields, and domains that (1) are involved in the acquisition of products
and/or services for national defense, or (2) could potentially be brought to bear to improve defense acquisition. These include but are not limited to economics, finance, financial management, information systems, organization theory, operations management, human resources management, and marketing, as well as the “traditional” acquisition areas such as contracting, program/project management, logistics, and systems engineering management.

The proposed research must provide through the dissemination of findings in a final Technical Report a public benefit beyond the potential to improve the efficiency, quality, innovation, and/or cost of DoD and DoN acquisition programs. Findings, for instance, should also be potentially applicable to improving private-sector competitiveness or effectiveness.

**Proposals for workshops, conferences, and symposia, or for the acquisition of technical engineering and other types of support services will not be considered.**

**Presentation of Research Findings:**

A. End of project deliverables - Awardees must deliver an Executive Summary and Technical Report, authored by the awardees and submitted to the technical point of contact listed below, as a Microsoft Word File no later than 30 days after the end of the period of performance.

1. Awardees should expect that the Executive Summary and Technical Report will be read by the general public and senior managers and policymakers in the DoD.

2. The Technical Report should follow a typical academic format (i.e., background, scope, literature review, methodology, analysis, results, recommendations and conclusion). A status report should not be submitted as the Technical Report.

3. Samples of completed Technical Reports can be found under publications at www.acquisitionresearch.net.

B. Symposium Deliverables:

1. An academic paper suitable for conference proceedings, not to exceed 20-pages, authored by the awardees and submitted in April for the Proceedings of the Annual Acquisition Research Symposium held in May 2014 or May 2015.

2. Presentation by the awardees at the Annual Acquisition Research Symposium scheduled for May 2014 or May 2015.

3. Submission requirements can be found at www.researchsymposium.org

4. If awardees elect the 2015 symposium, the grant period of performance should extend through May 2015.

C. Awardees must agree to discuss research progress with the OSD sponsor via a video-teleconference at a time to be determined during the period of the award.

**7. Point(s) of Contact:**

Questions or assistance regarding Grants.gov registration process, system requirements or submittal process shall be directed to Grants.gov by phone at 1-800-518-4726 or email to support@grants.gov

Questions of a general nature can be directed to research@nps.edu.
Questions of a **business** nature shall be directed to the cognizant Contract and Grant Officer at NAVSUP FLC San Diego or to Grant Management Specialist at the Naval Postgraduate School in writing by electronic mail (e-mail).

Christina Beal  
Contract Specialist  
NAVSUP Fleet Logistics Center  
San Diego Regional Command Support Code 230  
E-mail: christina.e.beal@navy.mil

OR

Teri Jay  
Grant Management Specialist  
Research and Sponsored Programs Office  
Office of the Vice President and Dean of Research  
Naval Postgraduate School  
E-mail: baa@nps.edu

Questions of a **technical** nature shall be submitted in writing by electronic mail to:

Keith F. Snider, Ph.D.  
Professor of Public Administration and Management  
Graduate School of Business & Public Policy  
Naval Postgraduate School  
E-mail: ksnider@nps.edu

8. **Instrument Type(s):** Awards may take the form of grants or cooperative agreements, as appropriate.

Offerors should familiarize themselves with these instrument types and the applicable regulations before submitting a proposal. Following are brief descriptions of the possible award instruments.

**Grant** – A legal instrument, consistent with 31 U.S.C. 6304, is used to enter into a relationship:

1. The principal purpose of which is to transfer a thing of value to the recipient to carry out a public purpose of support or stimulation authorized by a law of the United States, rather than to acquire property or services for the Department of Defense’s direct benefit or use.
2. In which substantial involvement is not expected between the Department of Defense and the recipient when carrying out the activity contemplated by the grant.
3. Where no fee or profit is allowed.

**Cooperative Agreement** – A legal instrument, consistent with 31 U.S.C. 6305, is used to enter into the same kind of relationship as a grant, except, when carrying out the activity contemplated by the cooperative agreement, DoD and Recipient will be working together. The term does not include “cooperative research and development agreements” as defined in 15 U.S.C. 3710a. No fee or profit is allowed.

9. **Catalog of Federal Domestic Assistance (CFDA) Numbers:** 12.300

10. **Catalog of Federal Domestic Assistance (CFDA) Titles:** Department of Defense (DoD) Basic and Applied Scientific Research
11. **Other Information:** This program is targeted in particular to U.S. universities and other research institutions outside the Department of Defense.

*Fundamental Research* – Fundamental Research means basic and applied research in science and engineering, the results of which ordinarily are published and shared broadly within the scientific community, as distinguished from proprietary research and from industrial development, design, production and product utilization, the results of which ordinarily are restricted for proprietary or national security reasons.

Work funded under this BAA may include basic research, applied research, and some advanced research, if properly programmed and approved for grants or cooperative agreements. With regard to any restrictions on the conduct or outcome of work funded under this BAA, NPS will follow the guidance as provided in the Under Secretary of Defense (Acquisition, Technology and Logistics) Memorandum of 24 May 2010 regarding fundamental research.

In conformance with the USD (AT&L) guidance and National Security Decision Direction 189, NPS will place no restriction on the conduct or reporting of unclassified “fundamental research,” except as otherwise required by statute, regulation, or Executive Order.

**Broad Agency Announcements (BAAs)** – FAR Part 35 restricts the use of BAAs such as this to the acquisition of basic and applied research and that portion of advanced technology development not related to the development of a specific system or hardware procurement. Grants and Cooperative Agreements under BAAs are for scientific study and experimentation directed towards advancing the state of the art and increasing knowledge or understanding.

**Organizational Conflict of Interest** – All prospective grantees for this BAA are on actual notice that the Department of Defense and the Department of the Navy (collectively referred to as "Grantor") rely on third-party contractor support. Consultant contractor employees, with appropriate non-disclosure agreements and organizational conflicts of interest clauses in their respective contracts with the Grantor, will be reviewing grant proposals for administrative purposes and may be involved in Grant administration for the life of any awarded grant. If you have any questions or concerns, please contact the Business POC identified in Section I, Item 7 before the closing date of the BAA.

**THIS ANNOUNCEMENT IS NOT FOR THE ACQUISITION OF TECHNICAL ENGINEERING AND OTHER TYPES OF SUPPORT SERVICES.**

**II. AWARD INFORMATION:**

There is no set limit to the number of proposals an institution can submit to this BAA. The funding amount and period of performance of each selected proposal will vary depending upon the technical approach to be pursued by the selected Offeror(s).

The Naval Postgraduate School (NPS) anticipates making multiple awards up to $120,000 each for a basic research period of twelve months. The period of performance (POP) for an award may exceed 12 months if the symposium paper and presentation will be made at the 2015 Symposium, in which case the POP would extend through 30 May 2015. (see I.6.B. above). NPS plans to complete proposal evaluations and notify selectees by the end of August 2013. This information is only an estimate and does not obligate the Government in any way. Estimated funding amounts may increase or decrease at any time based on current and future appropriations.

The award selection notification **must not** be regarded as an authorization to begin performance or commit/expend funds. The Government is not obligated to provide any funding until a Government Grant Officer from NAVSUP FLC San Diego signs the respective award document. Costs incurred in advance of signed grants or other transactions are solely the responsibility of the prospective grantee.
Government officials, acting in DoN or DoD’s best interest, may choose not to fund a grant; the act of funding a grant award or not funding a grant, is solely within DoN or DoD Grant Officer discretion and is not subject to any disputes process or appeal process.

III. ELIGIBILITY INFORMATION:

All responsible institutions from academia and industry may submit proposals under this BAA. Historically Black Colleges and Universities (HBCUs) and Minority Institutions (MIs) are encouraged to submit proposals and join others in submitting proposals. However, no portion of this BAA will be set aside for HBCU and MI participation.

U.S. Government schools of higher education, Navy laboratories and warfare centers, as well as other DoD and civilian agency laboratories are not eligible to receive awards under this BAA. Federally Funded Research & Development Centers (FFRDCs), including Department of Energy National Laboratories, are likewise not eligible to receive awards under this BAA. These types of organizations should not directly submit either white papers or full proposals in response to this BAA. If any such organization is interested in conducting acquisition research, the organization should submit a technical proposal and cost estimate to the technical point of contact identified in Section I.7 to discuss its area of research interest.

Some topics cover export-controlled technologies. Research in these areas is limited to “U.S. persons” as defined in the International Traffic in Arms Regulations (ITAR) 22 CFR § 120.1 et seq.

The Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), as amended by Section 6202 of Public Law 110-252, requires that all agencies establish requirements for recipients reporting information on sub-awards and executive total compensation as codified in 2 CFR 33.110. Any company, non-profit agency, or university that applies for financial assistance (either grants or cooperative agreements) as either a prime or subrecipient under this BAA must provide information in its proposal that describes the necessary processes and systems in place to comply with the reporting requirements identified in 2 CFR 33.220.

It should be emphasized that in an award, the awardee receiving the funds accepts total responsibility for maintaining adequate cost controls while executing the effective research methodology. Award funding is not to be considered a “Department of Navy” (DON) or “Department of Defense” (DoD) endorsement, nor shall it imply any DoD/DON co-sponsorship.

An entity is exempt from this requirement UNLESS in the preceding fiscal year it received: a) 80 percent or more of its annual gross revenue in Federal contracts (and subcontracts), loans, grants (and sub-grants), and cooperative agreements; b) $25 million or more in annual gross revenue from Federal contracts (and subcontracts), loans, grants (and sub-grants), and cooperative agreements; and c) the public does not have access to information about the compensation of the senior executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 or section 6104 of the Internal Revenue Code of 1986.

IV. APPLICATION AND SUBMISSION INFORMATION:

1. Application and Submission Process:

An individual at a qualified institution wishing to apply for an award must submit a research proposal as described in Section II, “Award Information.” The submission must also include a supporting letter through the appropriate institutional official (i.e., the applicant’s Department Chairperson, Dean, or other official who speaks for the institution regarding support for and commitment to acquisition research). This supporting letter should state whether or not the applicant holds a tenure track position or a permanent position with the institution. If the institution does not designate an
appointment as tenure track, the letter should state whether or not, and if so when, the applicant will be considered for a permanent appointment.

The research proposal shall follow the format described under the proposal preparation section below, “Content and Format of Research Proposals.”

The Proposals submitted under this BAA are expected to be unclassified.

All Proposal submissions will be protected from unauthorized disclosure in accordance with FAR 15.207, applicable law, and DoD/DoN regulations. Offerors are expected to appropriately mark each page of their submission that contains proprietary information. The proposal shall include a severable, self-standing Statement of Work, which contains only unclassified information and does not include any proprietary restrictions.

2. Content and Format of Research Proposals:

Proposals shall contain both a technical and cost proposal as described below, along with biographical information or curriculum vita of each member of the research team.

The following general information applies:

- **Paper Size** – 8.5 x 11 inch paper
- **Margins** – 1 inch
- **Spacing** – single-spaced
- **Font** – Times New Roman, 12 point
- **Number of Pages:**
  - **Volume 1: Technical Proposal**, including all information, appendices, and attachments, shall not exceed twelve (12) pages (single-spaced). Pages in excess of this limitation will not be considered by the Government.
  - **Volume 2: Cost Proposal** shall not exceed five (5) pages (single-spaced), not including required forms or supporting documentation.
  - **Volume 3: Biographical/Vita Section** shall not exceed three (3) pages (single-spaced) for each member of the research team.

**Volume 1: Technical Proposal:** The technical proposal must include the following:

- **Cover Page:** This should include the words “Technical Proposal” and the following:
  - BAA Number **NPS-BAA-13-003**
  - Title of Proposal
  - Identity of the Prime Offeror Institution
  - Technical Contact (name, address, phone/fax, electronic mail address)
  - Administrative/Business Contact (name, address, phone/fax, electronic mail address)
  - Duration of Effort (If 2015 symposium is selected, the grant period of performance should extend through 30 May 2015.)
• **Statement of Research Issue/Results:** Concise (shall not exceed 50 words) statement of the problem the proposed research will address and anticipated results. This statement is an important part of the evaluation/award process.

• **Public Purpose:** Concise (shall not exceed 150 words) statement of how the proposed research supports or stimulates a public purpose, rather than providing a deliverable to DoD/DoN. This statement is an important part of the evaluation/award process.

• **Executive Summary:** Concise (approximately 200 words) abstract of the proposed research effort. The abstract must specifically describe how the principal purpose of the research effort supports or stimulates a public purpose and, if applicable, the substantial involvement by the government.

A **grant** can only be awarded if the principal purpose is to support or stimulate a public purpose.

A **cooperative agreement** can only be awarded if the principal purpose is to support or stimulate a public purpose and there is also substantial involvement by the government.

• **Statement of Work:** The statement of work should include a description of the proposed work in sufficient detail for evaluation, including the scientific background, objective, and technical approach for each proposed task. The statement of work should also include:

  - Appropriate references cited to the scientific literature;
  - Identification of the symposium at which the research results will be presented: either the May 2014 or May 2015 Acquisition Research Symposium (see Section 1.6. above);
  - Indication of how the proposed research may be coordinated with other research efforts and;
  - Indication of how the proposed research may serve as a catalyst for a longer-term program of acquisition-related research.

*Grants and Cooperative Agreements do not include the delivery of software, prototypes, and hardware deliverables.*

• **Statement of Research Status:** Concise statement which:

  - Identifies whether the proposed work is a follow-on effort from a prior award, and if so, describes how the proposed work extends or enhances the prior effort.
  - Identifies whether applicants have received prior awards through the Acquisition Research Program at the Naval Postgraduate School, and if so, gives the status of all deliverables for those awards.

• **Current and Pending Projects and Proposal Submissions:** Offerors are required to provide information on all current and pending support for ongoing projects and proposals, including subsequent funding in the case of continuing contracts, grants, and assistance agreements. Offerors shall provide the following information from related or complementary proposal submissions from whatever sources (e.g., NPS; Federal, State, local or foreign government agencies; public or private foundations; and industrial or other commercial organizations).
The information must be provided for all proposals already submitted or submitted concurrently to other possible sponsors, including NPS. Concurrent submission of a proposal to other organizations will not prejudice its review by NPS:

1) Title of Proposal and Summary;
2) Source and amount of funding (annual direct costs; provide contract and/or grant numbers for current contracts/grants);
3) Percentage effort devoted to each project;
4) Identity of prime Offeror and complete list of subcontractors, if applicable;
5) Technical contact (name, address, phone/fax, electronic mail address);
6) Administrative/business contact (name, address, phone/fax, electronic mail address);
7) Period of performance (differentiate basic effort);
8) The proposed project and all other projects or activities requiring a portion of time of the Principal Investigator and other senior personnel must be included, even if they receive no salary support from the project(s);
9) The total award amount for the entire award period covered (including indirect costs) must be shown, as well as the number of person-months or labor hours per year to be devoted to the project, regardless of source of support; and
10) Statement of how the project(s) are related to the proposed effort with degree of overlap indicated.

Volume 2: Cost Proposal:

The offeror must use the Grants.gov budget forms from the application package template associated with this BAA on the grants.gov website located at http://www.grants.gov/. Option periods are not allowed under this BAA. A separate Adobe PDF document should be uploaded with the online application materials, providing appropriate verification and/or supporting documentation for each element of costs proposed.

The Cost Proposal, which is a narrative explaining and justifying the budget figures in detail, must include all figures, calculations, and supporting documentation for determining cost allowability, allocability and reasonableness. Justifications for costs must be explicitly stated.

Costs proposed must conform to the following principles and procedures, as applicable:

- Educational Institutions: OMB Circular A-21, relocated to 2 CFR 220
- Non-Profit Organizations: OMB Circular A-122, relocated to 2 CFR 230*

*For those Non-Profit Organizations specifically exempt from the provisions of OMB Circular A-122, FAR Part 31, and DFARS part 231 shall apply.

The Cost Proposal must include the following for each applicable category:

- **Direct Labor** – Individual labor categories or persons, with associated labor hours and unburdened direct labor rates. Provide escalation rates for out years. Provide documentation verifying negotiated labor rates for each individual or labor category if supporting staff, such as research associates, has not yet been identified. In addition, describe how new staff will be
recruited and selected. Provide current and supporting documentation for all personnel involved in the research effort (e.g. pay scales of your institution, copy of payroll statement, or confirmation letter from your institution).

- **Administrative and Clerical Labor** – Salaries of administrative and clerical staff are normally indirect costs (and included in an indirect cost rate). Direct charging of these costs may be appropriate when a major project requires an extensive amount of administrative or clerical support significantly greater than normal and routine levels of support. Budgets proposing direct charging of administrative or clerical salaries must be supported with a budget justification that adequately describes the major project and the administrative and/or clerical work to be performed.

- **Fringe Benefits** – The proposal should show the rates and calculation of the costs for each rate category and the salary amount to which it is applied.

- **Travel** – The proposed travel costs should include the following for each trip: the purpose of the trip, origin and destination if known, approximate duration, the number of travelers, and the estimated cost per trip to include cost details such as per diem, lodging, airfare, registration, rental car, and other miscellaneous cost. These proposed costs must be supported based upon the organization’s historical average cost per trip or other reasonable basis for estimation such as quotes from online airline vendors. Such estimates and the resultant costs claimed must conform to the applicable Federal cost principles. Explain why travel is a necessary and/or cost effective component of the technical approach / methodology, as well as why the travel destination was chosen. Provide your institution’s travel policy or web link to your travel policy.

- **Sub-awards** – Subawards should be utilized only when the awardee deems them absolutely necessary for achieving the project objective. Provide a description of the work to be performed by the sub-recipient, who, like the prime Offeror, is an institution or other type of organization. For each sub-award, a detailed cost proposal is required to be submitted by the sub-recipient(s). The proposed sub-awardee’s or sub-recipient’s cost proposal can be provided in a sealed envelope with the recipient’s cost proposal or via e-mail directly to both the Program Officer and the business point of contact at the same time the prime proposal is submitted. The e-mail should identify the proposal title, the prime Offeror, and that the attached proposal is either a subcontract or a sub-agreement. A proposal and supporting documentation must be received and reviewed before the Government can complete its cost analysis of the proposal and enter negotiations.

  Provide specific information as follows: (1) a clear description of the work to be performed; (2) if known, the identification of the proposed sub-awardee and an explanation of why and how the sub-awardee was selected or will be selected; (3) the identification of the type of award to be used (cost reimbursement, fixed price, etc.); (4) whether or not the award will be competitive and, if noncompetitive, rationale to justify the absence of competition; and (5) a detailed cost summary.

- **Consultants** – Offerors normally are expected to utilize the services of their own staff to the maximum extent possible in managing and performing the project’s effort. If the need for consultant services is anticipated, the nature of proposed consultant services should be justified and included in the technical proposal narrative. If known at time of application, the cost proposal should include the names of consultant(s), primary organizational affiliation, each individual’s expertise, daily compensation rate, number of days of expected service, and estimated travel and per diem costs. If not known, briefly describe how the consultants will be selected, what their anticipated hourly rate might be, the total hours expected from them, and the total estimated cost.
• **Materials & Supplies** – Provide an itemized list of all proposed materials and supplies including quantities and unit prices, proposed vendors (if known), and the basis for the estimate (e.g., formal or informal quotes, prior purchases, catalog price lists). Include supporting documentation for the estimates. State whether or not your institution has an approved purchasing system and, if so, provide a copy of the approval or web link.

• **Recipient Acquired Equipment or Facilities** – Equipment and/or facilities are normally furnished by the Recipient. If acquisition of equipment and/or facilities is proposed, a justification for the purchase of the items must be provided. Provide an itemized list of all equipment and/or facilities costs and the basis and supporting documentation for the estimate (e.g., formal or informal quotes, prior purchases, catalog price lists). Allowable items normally would be limited to research equipment not already available for the project. General purpose equipment (i.e., equipment not used exclusively for research, scientific, or other technical activities, such as personal computers, office equipment and furnishings, etc.) should not be requested unless they will be used primarily or exclusively for the project. Facilities costs should be supported by documentation on leased space or the like. For computer/laptop purchases and other general-purpose equipment, if proposed, include a statement indicating how each item of equipment will be integrated into the program or used as an integral part of the research effort.

• **Other Direct Costs** – Provide an itemized list of all proposed other direct costs such as Graduate Assistant tuition, laboratory fees, report and publication costs, and the basis for the estimates (e.g., established rates, quotes, prior purchases, catalog price lists). Include supporting documentation for cost estimates. If one exists, provide a copy of your organization’s policy for each category of costs.

• **Indirect Costs** (i.e., F&A, Overhead, G&A, etc.): Show the rates and calculation of the costs for each rate category, listing the base on which the rate is applied.

If the rates have been approved / negotiated by a Government agency, provide a copy of the memorandum/agreement. If the rates have not been approved / negotiated, provide sufficient detail to enable a determination of allowability, allocability, and reasonableness of the allocation bases, and how the rates are calculated according to applicable OMB Circulars or FAR/DFARS provisions. Offerors’ disclosure should be sufficient to permit a full understanding of the content of the rate(s) and how it was established. At a minimum, the submission should identify: (1) all individual cost elements included in the forecast rate(s); (2) bases used to prorate indirect expenses to cost pools, if any; (3) how the rate(s) was calculated; (4) distribution basis of the developed rate(s); (5) bases on which the overhead rate is calculated, such as “salaries and wages” or “total costs,” and (6) the period of the Offeror’s fiscal year. Additional information may be requested, if needed. If composite rates are used, provide the calculations used in deriving the composite rates. A Negotiated Indirect Cost Rate Agreement (NICRA) may be required in order for an awardee to invoice for indirect costs. If the offeror does not currently hold a NICRA, describe the current status of the organization’s request for such an agreement with a cognizant agency.

**NOTE:** The 2010 National Defense Authorization Act (NDAA) provided for an Indirect Cost Cap of 35% for all 6.1 funded awards; future appropriations may do the same, and if they do, this will be stipulated in any award document. At the time this BAA was posted, there was no Indirect Cost Cap.

• **Fee/Profit** – Fee/profit is unallowable under assistance agreements at either the prime or sub-award level but may be permitted on any subcontracts issued by the prime awardee.
Volume 3: Biographical Information/Curriculum Vita: Biographical information or curriculum vita of each applicant should address the following in three (3) pages or less per person:

- List of publications, professional activities, patents, honors, awards, and other accomplishments;
- Information describing any specific acquisition-related research and/or experience of investigator(s);
- Description of involvement in other research projects currently undertaken by the applicant, whether or not acting as a principal investigator;
- Description of other pending research proposals (title, amount, where pending), including other agencies receiving this proposal.

3. Significant Dates and Times: This announcement will remain open until 5:00 p.m. (PDST), 13 June 2013. Proposals received after this time will not be considered for award.

4. Submission of Late Proposals: Not applicable (N/A)

5. Submission of Proposals via grants.gov website (www.grants.gov):

Proposals in response to NPS-BAA-13-003 (Funding Opportunity Number) must be submitted via the Grants.gov website (http://www.grants.gov). Application forms and instructions are available on the grants.gov website. Offeror shall complete the mandatory forms in the application package template associated with this BAA.

Registration Requirements for Grants.gov: There are several one-time actions you must complete in order to submit an application through Grants.gov. These include obtaining a Dun and Bradstreet Data Universal Numbering System (DUNS) number, registering with the System of Award Management (SAM), registering with the Credential Provider, and registering with Grants.gov. See http://www.grants.gov/applicants/get_registered.jsp to begin this process. The Grants.gov Organization Registration Checklist at http://www.grants.gov/assets/organizationregcheck_092112.pdf will guide you through the process. Designating an E-Business Point of Contact (EBiz POC) and obtaining a special password called ‘MPIN’ are important steps in the SAM registration process. Applicants, who are not registered with SAM and Grants.gov, should allow at least 21 days for completion of these requirements. It is suggested that the process be started as soon as possible.

Questions relating to the registration process, system requirements, how an application form works, or the submittal process must be directed to Grants.gov at 1-800-518-4726 or e-mail: support@grants.gov.
By completing Block 17 of the SF 424 R&R, the Grant Applicant is providing the certification on lobbying required by 32 CFR Part 28. Refer to Section VI, ‘Award Administration Information’ entitled “Certifications” for further information.

Grants.gov Proposal Submission: Application forms and instructions are available at Grants.gov. To access these materials, go to http://www.grants.gov, select "Apply for Grants", and then select "Download Application Package." In the box labeled “Funding Opportunity Number,” enter NPS-BAA-13-003, designated as “Research Opportunity Number” on page two of this announcement. Click on the button labeled “Download Package.” Follow the instructions on the Grants.gov page to complete the application download process. You must complete the mandatory forms and any applicable optional forms (e.g., SF-LLL Disclosure of Lobbying Activities) in accordance with the instructions on the forms and the additional instructions provided in this BAA. All attachments to grant applications submitted through Grants.gov must be in Adobe Portable Document Format (PDF) unless otherwise specified in this announcement.

It is recommended that you complete the SF 424 R&R form first to populate data in other forms. Complete all the required fields in accordance with the pop-up instructions on the form. To activate the instructions, turn on the “Help Mode” (icon with the pointer and question mark at the top of the form).

Please denote the beginning and ending of proprietary information with asterisks (***)

All applications must be self-contained within specified page limitations. Internet website addresses (URLs), with the exception of cost-proposal supporting documentation of Offeror policies and procedures, may not be used to provide information necessary to the review, because reviewers are under no obligation to view the Internet sites.

Special Notice Regarding a Waiver of Grants.gov Proposal Submission Requirement:

If an Offeror is unable to comply with the requirement to use grants.gov for submission of a grant application under this BAA or finds it would be an excessive burden to comply with this requirement, a waiver request may be submitted. Such request should be submitted by the Electronic Business Point of Contact listed in the SAM for the Offeror organization and should contain the Organization and individual’s name, address, telephone number, and e-mail address. The request should state the reason for the request in sufficient detail so a decision can be made. The Waiver Request should be submitted to both the Grant Officer at NAVSUP FLC San Diego and to the Grants Management Specialist at the Naval Postgraduate School as identified in Section I (General Information), Item 7 above. Such requests can be sent by email or registered mail.

A decision and response will be issued within 14 calendar days of receipt of the request by the Grants Specialist. Foreign Grantees who are not registered in the SAM may request a waiver on that basis since SAM registration is integral to the Grants.gov application process. If the waiver is approved, NPS will provide a packet of all required documents and submission instructions via email or in hard copy via registered mail.

V. EVALUATION INFORMATION:

1. Evaluation Criteria:

Award decisions will be based upon competitive selection of proposals through a peer and/or technical and scientific review and business decision process with technical and scientific considerations being most important. Criteria A and B are of equal importance and more important than criterion C. The sub-criteria listed under each particular criterion are of equal importance.
A. Overall scientific and technical merits of the proposal

1) Knowledge and familiarity with DoD acquisition
2) Compatibility of research questions with acquisition topics of interest
3) Thoroughness, clarity, and parsimony of the proposal
4) Feasibility of research design/technical concept
5) Potential impact of research results
6) Publication potential of research results

B. Offeror’s capabilities, related experience, and past performance, including the qualifications, capabilities and experience of the proposed principal investigator and assistant personnel

1) The quality of technical personnel proposed
2) The Offeror’s experience in relevant efforts with similar resources
3) The ability to manage the proposed effort.

C. Realism of the proposed cost. The realism of the proposed costs, the availability of funds, and the demonstrated ability to deliver effective research at a reasonable cost.

NOTE: While overall cost (if funds are available) is the least important factor in making a decision, the realism, reasonableness, and effectiveness of the research at the given costs must be affirmatively established before award. It is noted, too, that the degree of its importance in the overall award will increase with the degree of equality of the proposals in relation to the other factors on which selection is to be based, or when the costs are so significantly high as to diminish the value of the proposal’s technical superiority to the Government.

2. Evaluation Panel:

Technical and cost proposals submitted under this BAA will be protected from unauthorized disclosure in accordance with FAR 3.104-5 and 15.207. The cognizant NPS Principal Investigator and other technical experts drawn from Government, industry, and/or academe will perform the evaluation of technical proposals. Cost proposals will be evaluated by Government business professionals. Restrictive notices notwithstanding, one or more support contractors may be utilized as subject-matter-expert technical consultants. Similarly, support contractors may be utilized to evaluate cost proposals. However, proposal selection and award decisions are solely the responsibility of Government personnel. Each support contractor’s employee having access to technical and cost proposals submitted in response to this BAA will be required to sign a non-disclosure statement prior to receipt of any proposal submissions.

VI. AWARD ADMINISTRATION INFORMATION:

1. Administrative Requirements:

- The North American Industry Classification System (NAICS) code: The North American Industry Classification System (NAICS) code for this announcement is 541720 with a small business size standard of $19.0M.

- System of Award Management (SAM): All Offerors submitting proposals or applications must: (a) be registered in the System of Award Management (SAM) prior to submission; (b) maintain an
active SAM registration with current information at all times during which it has an active Federal award or an application under consideration by any agency; and (c) provide its DUNS number in each Full Proposal it submits to NPS via Grants.gov.

2. Certifications/Assurances:

   • Certification Regarding Lobbying Activities – Grant and Cooperative Agreement awards greater than $100,000 require a certification of compliance with a national policy mandate concerning lobbying. Grant applicants shall provide this certification by electronic submission of SF424 (R&R) as a part of the electronic proposal submitted via Grants.gov (complete Block 17).

3. Policy Requirements:

   Any award issued as a result of this announcement is subject to the following administrative, cost, and national policy requirements contained therein.

   • Department of Defense Grant and Agreement Regulations (DoDGARS 3210.6-R). An electronic copy of DoDGARs may be found at http://www.dtic.mil/whs/directives/corres/html/321006r.html
   • Federal Acquisition Regulation (FAR) Part 31.2, “Contracts with Commercial Organizations.”
   • OMB Circular A-133. “Audits of States, Local Governments, and Non-Profit Organizations.”

VII. OTHER INFORMATION:

1. Government Property/Government Furnished Equipment (GFE) and Facilities:

   Government research property, facilities and operational military units are available and should be considered as potential government furnished equipment/facilities. These facilities and resources are of high value and some are in constant demand by multiple programs. It is unlikely that all facilities would be used for any one specific program. The use of these facilities and resources will be negotiated as the program unfolds. Offerors should explain as part of their proposal, if applicable, which of these facilities are critical for the project’s success.

2. Security Classification:

   Normally, work under a grant or cooperative agreement does not require access to classified material. If access to classified material will be required at any point during performance, the Offeror must clearly identify such need prominently in its proposal.

3. Use of Human Subjects in Research:
For any proposal for research involving human subjects, the Offeror must submit prior to award: documentation of approval from an Institutional Review Board (IRB); IRB-approved research protocol; IRB-approved informed consent form; proof of completed human research training (e.g., training certificate or institutional verification of training); and application for a DoD-Navy Addendum to the Offeror’s DHHS-issued Federal Wide Assurance (FWA) or the Offeror’s DoD-Navy Addendum. In the event that an exemption criterion under 32 CFR.219.101 (b) is claimed, provide documentation of the determination by the Institutional Review Board (IRB) Chair, IRB vice Chair, designated IRB administrator or official of the human research protection program, including the category of exemption and short rationale statement. If the research is determined by the IRB to be greater than minimal risk, the Offeror also must provide the name and contact information for the independent medical monitor. This documentation shall be submitted to the NPS Institutional Review Board Administrator via NPS Grant Support at baa@nps.edu.

4. Organizational Conflict of Interest:

All Offerors and proposed sub-awardees must affirm whether they are providing scientific, engineering, and technical assistance (SETA) or similar support to any NPS entity through an active contract or subcontract. All affirmations must state which office(s) the Offeror supports and identify the prime contract numbers. Affirmations shall be furnished at the time of proposal submission. All facts relevant to the existence or potential existence of organizational conflicts of interest (FAR 9.5) must be disclosed. The disclosure shall include a description of the action the Offeror has taken or proposes to take to avoid, neutralize, or mitigate such conflict. In accordance with FAR 9.503 and without prior approval, a contractor cannot simultaneously be a SETA and a research and development performer.

Proposals that fail to fully disclose potential conflicts of interests or do not have acceptable plans to mitigate identified conflicts will be rejected without technical evaluation and withdrawn from further consideration for award. If a prospective Offeror believes that any conflict of interest exists or may exist (whether organizational or otherwise), the Offeror should promptly raise the issue with NPS by sending his/her contact information and a summary of the potential conflict by e-mail to the Business Point of Contact in Section I, item 7 above, before time and effort are expended in preparing a proposal and mitigation plan. If, in the sole opinion of the Government after full consideration of the circumstances, any conflict situation cannot be effectively avoided or mitigated, the proposal may be rejected without technical evaluation and withdrawn from further consideration for award under this BAA.

5. Protection of Proprietary and Sensitive Information:

The parties acknowledge that, during performance of the award agreement resulting from this BAA, the recipient may require access to certain proprietary and confidential information (whether in its original or derived form) submitted to or produced by the Government. Such information includes, but it is not limited to, business practices, proposals, designs, mission or operation concepts, sketches, management policies, cost and operating expense, technical data and trade secrets, proposed Defense policies, cost and operating expenses, technical data and trade secrets, proposed Defense budgetary information, and acquisition planning or acquisition actions obtained either directly or indirectly as a result of the effort performed on behalf of DoD.

The recipient shall take appropriate steps not only to safeguard such information, but also to prevent disclosure of such information to any party other than the Government. The recipient agrees to indoctrinate personnel who will have access to or custody of the information concerning the nature of the confidential terms under which the Government received such information and shall stress that the information shall not be disclosed to any other party or to recipient personnel
who do not need to know the contents thereof for the performance of the agreement. Recipient personnel shall also be informed that they shall not engage in any other action, venture, or employment wherein this information will be used for any purpose by any other party.

As set forth herein, Recipient acknowledges and agrees that third-party support contractors may access technical information submitted by Recipient. Government will ensure that the contractor employee has a signed a non-disclosure agreement with its employer (on record); and, Government will ensure that the contractor employer, likewise, has a signed Organizational Conflict of Interest clause with the Government precluding exploitation of any kind of non-public data it accesses as a result of its Government contract effort(s).

6. Acknowledgement of Naval Postgraduate School (NPS) Support:

NPS’s full or partial support must be acknowledged in journal articles, oral or poster presentations, news releases, interviews with reporters, and other communications. Any documents developed under an award agreement resulting from this BAA that are intended for distribution to the public or inclusion in a scientific, technical, or other journal shall include the following statement:

This publication [article] was developed under research supported by the Naval Postgraduate School Acquisition Research Program Assistance Agreement No. _________ awarded by the Naval Supply Systems Command (NAVSUP) Fleet Logistics Center San Diego (NAVSUP FLC San Diego). It has not been formally reviewed by NPS. The views and conclusions contained in this document are those of the authors and should not be interpreted as necessarily representing the official policies, either expressed or implied, of the NPS or NAVSUP FLC San Diego. The NPS and NAVSUP FLC San Diego do not endorse any products or commercial services mentioned in this publication.

7. Reporting Executive Compensation and First-Tier Subcontract Awards

The FAR clause 52.204-10, “Reporting Executive Compensation and First-Tier Subcontract Awards,” will be used in all procurement contracts valued at $25,000 or more. A similar award term will be used in all grants and cooperative agreements.

8. Military Recruiting On Campus (Applies only to Grants and Cooperative Agreements)

Military Recruiting on Campus (DoDGARS Part 22.520) applies to domestic U. S. colleges and universities. Appropriate language from 32CFR22.520, Campus Access for Military Recruiting and Reserve Officer Training Corps (ROTC), will be incorporated in all university grant awards.

9. Updates of Information Regarding Responsibility Matters

FAR clause 52.209-9, Updates of Publicly Available Information Regarding Responsibility Matter, will be included in all contracts valued at $500,000 or more where the contractor has currently active Federal contracts and grants with a total value greater than $10 million.

10. Intellectual Property

Offerors responding to this BAA must submit a separate list of all technical data or computer software that will be furnished to the Government with other than unlimited rights. The Government will assume unlimited rights if Offerors fail to identify any intellectual property restrictions in their proposals. Include in this section all proprietary claims to results, prototypes, and/or deliverables. If no restrictions are intended, then the Offeror should state “NONE.”
