Assistant Professor of Computer Science, specializing in Autonomous Systems
AD-1701-03
Department of Computer Science
Naval Postgraduate School, Monterey, CA

The Naval Postgraduate School (NPS) is accepting applications for the position of Assistant Professor in the Department of Computer Science. The focus of Autonomous Systems includes machine learning, data-mining, and natural language processing, with emphasis on reasoning over large data sets.

We are the Department of Computer Science at the Naval Postgraduate School in Monterey, California. Our students are primarily military officers seeking masters degrees, civilians entering the Cyber Corps, and a few PhD students. We specialize in cyber security, networking, modeling and simulation, autonomous systems, software engineering, and data science. Our research addresses hard problems in national security, supported by state of the art laboratories. We are close to the technology hubs of San Jose and Silicon Valley and very well connected in the US Navy and DoD cyber security and big data communities. We are 40 faculty with 20 tenure track professors. Additional information about our department can be found at http://nps.edu/cs.

We seek to fill the position by May 2017 and will consider applications on a rolling basis until the positions are filled. In your application package include your curriculum vitae, teaching and research statements, and names of three references.

Minimum qualifications:
- Must have a PhD in a related discipline.
- Must currently hold or be eligible for a Secret clearance.
- Must be a U.S. citizen.

Forward the application package to Dr. Robert Beverly, Search Committee Chair, Computer Science Department, Naval Postgraduate School, 1411 Cunningham Rd GE-314, Monterey, CA 93943. Email: rbeverly@nps.edu

The Naval Postgraduate School is an equal opportunity employer. For additional information about NPS, please refer to the website at http://www.nps.edu.
