An aerial photograph of the NPS SLAMR facility. The facility is a large, rectangular concrete structure with several internal divisions. At the top of the structure is a large rectangular area labeled 'Aquatic Tank 1'. Below this is a section labeled 'Experimentation Area' which contains several smaller rectangular tanks. At the bottom of the structure is an 'Entrance' area with two small orange-roofed buildings. To the left of the entrance is an 'Extra Parking' area with several vehicles. The facility is situated on a sandy, vegetated area near a beach and the ocean.
