Multiple Tenure-Track Assistant Professor Positions
Department of Computer Science
Naval Postgraduate School
Monterey, CA

The Naval Postgraduate School (NPS) has multiple openings for tenure-track Assistant Professor positions in the Department of Computer Science. We encourage all qualified candidates to apply, but are especially interested in artificial intelligence, data science, distributed systems, machine learning, and security.

Our students are primarily military officers earning masters degrees, civilians entering the Cyber Corps, and a small number of PhDs. We specialize in cyber security, networking, modeling and simulation, autonomous systems, software engineering, and data science. Our research addresses hard problems in national security; we foster close collaboration with our military, civilian, and international graduate students, supported by state-of-the-art laboratories. We are close to the technology hubs of San Jose and Silicon Valley and are very well connected in the US Navy and DoD cyber security and big data communities. We are 40 faculty with 20 tenure track professors.

We seek to fill positions by September 2019 and will consider applications on a rolling basis until filled. In your application package include a curriculum vitae, teaching and research statements, and the names of three references.

Minimum qualifications:
- Must have a PhD in a related discipline.
- Must currently hold or be eligible for a Secret clearance.
- Must be a U.S. citizen.

Forward the application package to Dr. Robert Beverly, Search Committee Chair: rbeverly@nps.edu

The Naval Postgraduate School is an equal opportunity employer. For additional information about NPS, please refer to the website at http://www.nps.edu.

NOTE: IF YOU ARE A VETERAN, you are strongly encouraged to: Identify your Veterans’ Preference on your resume or elsewhere in your application package (type of preference, dates of service, date of VA letter, character of service, etc...)
